12th Ph.D. Workshop on International Climate Policy 28th/29th April 2006, University of Groningen

Call for Papers

This workshop is organised by the *European Ph.D. Network on International Climate Policy*, which is an independent scientific community. It is open to Ph.D. students and researchers from all disciplines working on different aspects of International Climate Policy. As a vital part of the network, the Ph.D. candidates meet twice a year for a workshop session which gives them the opportunity to present their theses and discuss them with other Ph.D. students and scientists working in the area of climate policy.

The purpose of the workshop is

- to offer Ph.D. candidates a forum to present their research ideas and results,
- to provide them with valuable feedback from other scientists,
- to encourage information exchange and mutual assistance among the members.

The broad range of research topics may inspire the participants' own research, thereby creating a more fertile research environment.

The meeting will be hosted by the research institute SOM of the Faculty of Economics of the University of Groningen (<http://som.rug.nl>) and the Energy Delta Research Center (<http://www.rug.nl/edrec/index>). Both days of the event will take place in the Conference Center "Het Kasteel" (<http://www.hetkasteel.com>)
