

# CIRES Visiting Fellows Program

<http://bit.ly/CIRESvf>

## Looking for a postdoctoral or sabbatical research opportunity?

CIRES invites scientists to join the thriving community of researchers in Boulder, Colorado, through our prestigious Visiting Fellows Program. CIRES visiting fellowships are intended to stimulate interdisciplinary science within the institute through engagement with researchers on campus and in Boulder's NOAA laboratories. Sponsored by CIRES fellows, visiting fellows work with CIRES researchers on a wide range of environmental science topics. The CIRES Visiting Fellows Program has attracted

more than 325 scientists from around the world since 1968; many have gone on to lasting careers in CIRES, NOAA and the University of Colorado Boulder. Two-year visiting fellowships are available for postdoctoral researchers (\$62,000/year), and terms of up to 12 months are available for senior scientists on leave or sabbatical. The application process opens in late October, and candidates are strongly encouraged to contact CIRES in advance of the **January 9, 2017 deadline**.
