Homework Assignment #1

Due: January 23, 2013 by email 6 pm

Pick a topic of interest to you and look for an example of one of the decision support planning methods being used on that topic. Write a one page summary of that example that includes a brief discussion of each of the following topics:

- 1) What kind of decision support planning method was used?
- 2) What inputs, uncertainties, and outputs are addressed and how?
- 3) What are some of the pros and cons of the method used?
